WHAT'S NEW in FLOWER SEEDS

ALL AMERICA SELECTIONS for 1946

These superior varieties, featured on this page, are brand new and they have been selected because of outstanding points that merit special attention. Seeds are not yet in large standard variety supply, and war conditions have kept growers from producing large quantities for expected demand.

PETUNIA ALL-DOUBLE "Colossal Shades of Rose" (Silver Medal)

The first giant Alldouble Petunia created in America—the largest ever seen, surpassing even the best pre-Pearl Harbor kinds. The exquisite intensely double blooms are up to 5 in. or more across and come in rich rose shades—salmon-pink through rosy-pink to deep rosy-mauve. Vigorous plants, 20-24 in. tall, bear profusely over a long period.

Tr. Pkt., (100 seeds).....\$1.00 250 seeds.....\$2.00

PETUNIA "Bright Eyes" (Hybr. Nana Comp.) (Bronze Medal)

A more compact and smaller version of the popular Rosy Morn. Flowers of clear rose-pink with white throat, carried well above the foliage. Uniform color and habit, about 10 in. tall.

Tr. Pkt.....50c 1/16 oz.....\$1.50 1/8 oz.....\$2.50

PETUNIA "Peach Red" (Hybr. Nana Comp.) (Honorable Mention)

Shapely plants 12 in. tall have a spread of 18-24 in, with no ungainly runners. A unique color of rich salmon cerise, distinct, and the richest salmon Petunia, quite different from and larger than Salmon Supreme.

Tr. Pkt.....50c 1/16 oz.....\$1.50 1/8 oz.....\$2.50

DIANTHUS HEDDENSIS "Westwood Beauty" (Honorable Mention)

As the name implies this Dianthus is the result of a cross between Dianthus Chinensis and Dianthus Heddegi, combining the large open flowers of Heddegi and the long stems of Chinensis.

Flowers single, 1½-2¼ inches, lacinated. The color is somewhat variable in red shades of crimson and scarlet, some having attractive white edgings. Average height 16 inches. Westwood Beauty stands the heat well and should become a good florist item, as well as a garden favorite.

Tr. Pkt.....25c ¼ oz.....75c 1 oz.....\$2.50

CELOSIA "Gilbert's Green Gold" (Another Gilbert's Origination)

The combs of this Novelty are perfectly ball-shaped and very solid in texture—a beautiful silvery green, slightly flushed with rose across the tip of the ruffles, with just a trace of yellow. A wonderful pastel color combination unknown in all Celosias. Comes 98% true. Stems very straight, round and non-branching, height about 30-40 inches.

These clusters may be cut at any stage and size and used in any arrangement from corsages to funeral sprays as the heads will last 3 or 4 days out of water. The single flowers measure 1¾ in. and more across. A combination of colors—ranging from vivid red through bronze with a few yellow flowers on the same plant, giving a rich and bizarre effect. Largest of all Carnation-Marigolds, with giant exhibition blooms 4 in. and more across, of a golden-orange color, fully double, deeper, larger and richer than Guinea Gold strains. A strong erect grower reaches 30 in. in height and is an early to late bloomer, as reported from south to north.

MARIGOLD "Mayling" (Odorless foliage)

Named Mayling in honor of Madame Chiong Kai-Shek. Flowers grow 3 in. and more across, the petals being incurved practically their entire length, and daintily fringed on the outer edges. This gives a soft, airy, fluffy appearance to the rich, buttery, golden primrose flowers. Plants grow about 2 ft. tall, are very profuse blooming, beginning early in the summer and continuing until frost. Mayling is the newest frilled carnation-flowered tall double African Marigold with odorless foliage. Showy in the garden and highly prized for cutting.

Dwarf French Double — For Pots and Bedding

Five Extra Good Varieties for Pot Plants and Bedding

Spry. (S.M., A.A.S. '41). A dwarf, earlier flowering strain of Harmony. Plants are of true Lilliput form, extremely dwarf and compact. It blooms much earlier than Harmony. Suited for borders, edgings and pots. Flowers grow 1½ in. across and have a bright, clear yellow crested center surrounded by several rows of mahogany-red guard petals.

Tr. Pkt. 20c ¼ oz. 35c 1 oz. \$1.25

Butterball. (B.M., A.A.S. '42). Butterball might be classed a super dwarf strain in the Harmony group. Plants are 6-8 in. in height and literally covered with their 2 in. soft butter yellow blooms of the characteristic Harmony formation-crested centers composed of dozens of dainty tubular petals, each carrying a touch of maroon at the tip. Remarkably early flowering, a first class bedding or pot plant variety.

Tr. Pkt. 20c ¼ oz. 35c 1 oz. \$1.25

Melody. (B.M., A.A.S. '42). When used as a low border or edging plant or in massed effects in beds, its effectiveness is unsurpassed. SUPER GIANT ZINNIAS

The largest of all Zinnias, with the loveliest colors and combinations of colors ever seen in this flower. Rare and unusual shades of cream, buff, apricot, salmon, rose and orange predominate, with a few yellows and whites; scarlet and crimson are not prominent, though there are some very attractive flowers in these colors. One is impressed at the many two-tone and three-tone color effects seen in some of the blooms.

Flowers are truly giant, $5\frac{1}{2}$ to $6\frac{1}{2}$ in. across, and of a wide diversity of flower form—some like Dahlia Flowered, others like Giants of California, and still others with curled and twisted chrysanthemum-like flower heads.

DELPHINIUM GIANT DOUBLE PACIFIC HYBRIDS

This remarkable strain produces extremely large double flowers, symmetrically spaced on well balanced spikes of whip-like stems. Notable also is its considerable degree of mildew resistance. The Giant Pacific Hybrids as well as the regular kinds such as Belladonna Cliveden Beauty, Lamartine etc. will produce fine large clumps by next fall for greenhouse forcing or sale if seed is sown early in spring. For varieties and prices see page 32.

VEGETABLE SEEDS FOR FLORISTS

Even though the battle fields are now quiet as far as shot and shell are concerned, the war against hunger is not over. Millions in other lands are fighting a losing war against starvation and its accompanying diseases. Therefore, we urge you—KEEP ON GROWING VEGETABLE PLANTS—to help feed the hungry.
